

## Standard and Premium Support

# Maintain Your F5 Solution with Fast, Reliable Support

In a world where change is the only constant, you rely on your F5® technology to deliver, no matter what turns your business takes. As challenges arise, quickly finding the best solution for your business can mean the difference between IT crisis and IT agility.

F5 Standard (5 x 10) support and Premium (7 x 24) support include remote assistance both online and over the phone, proactive support for planned maintenance, advance RMA replacement, software upgrades, and help with F5 iRules® scripts. You can upgrade your support with Expedited RMA Services and Maintenance Add-On Packages. In addition, F5 provides many free, self-service resources to help you get the most from your F5 investment.

### Key benefits

#### Keep your business running

Receive fast, knowledgeable help with questions or issues regarding your F5 technology, so you can keep delivering the services on which your business depends.

#### Prepare for known events

Fast-track support for scheduled maintenance to minimize time spent opening a new case.

#### Increase flexibility

Make the most of the flexibility provided by iRules scripts to customize your F5 devices. With Standard and Premium support, F5 experts provide iRules assistance, tips, and tricks.

#### Enhance ROI

Get more value from your investment by using the resources on F5.com to search the knowledge base, expand your skill set, and interact with the F5 developer community.

## Standard and Premium Support Features

From F5-trained Network Support Engineers to Proactive Case management options to online tools and software downloads, you'll find a range of F5 resources to provide the right level of support for your organization.

Differences between Standard support and Premium support are in support hours and iRules level of support. Please see the Network Support Centers section and iRules Support section in this datasheet for details.

## Expert Assistance When You Need It

Count on F5 Support to provide the help you need, when you need it. F5's worldwide customer support organization has implemented an ISO 9001:2008-compliant Quality Management System that ensures that F5 adheres to documented processes and procedures and continues to improve its delivery of customer support. With ISO compliance, you can be confident you'll receive consistently excellent service.

### Network Support Centers

F5 Network Support Centers are strategically located for partners and customers in APAC, Japan, EMEA, and North America. Regionally located support centers enable F5 to provide support in a number of languages through native-speaking support engineers who are available when you are, during your business day. Globally dispersing Network Support Centers allows for cases to truly "follow the sun," which means Network Support Engineers are available to provide help when you need it.

- Standard support hours are Monday through Friday, 8:00 a.m. to 6:00 p.m., your local time.
- Premium support hours are every day, around the clock, 365 days a year.

### Network Support Engineers

F5 Network Support Engineers have extensive knowledge of F5 technology and receive continuous training in the latest features and updates to F5 products. When you contact Support, your call will be routed to the best subject matter expert for your case.

### WebSupport Portal

F5's WebSupport Portal provides you with more flexibility and fast access to F5 Network Support Centers, at any time. Quickly create new support cases, receive an automated case number, read case details and updates, upload troubleshooting attachments, and more. Online help is always available.

## Proactive Case Management

With Proactive Case management, you can alert F5 Support of upcoming scheduled maintenance on your F5 devices. That way, if you do need assistance, you'll save the time spent opening a new case and providing diagnostic files, and F5 Network Support Engineers can be quickly assigned to your case.

## iRules Support

Standard and Premium support include iRules scripting language assistance.

### Standard iRules support

Standard iRules support provides basic syntactical review for customers with active Standard support maintenance contracts.

### Premium iRules support

In addition to Standard iRules support services, Premium iRules support adds validation, troubleshooting, and functional testing of scripted iRules for customers with Premium support maintenance contracts. F5 also offers self-service iRules resources on the F5 DevCentral™ online community.

## Software Upgrades and Updates

New software releases are available at no charge for supported units.

## Self-Service Resources

To get the most value from your F5 solution investment, explore the resources provided by the AskF5™ Knowledge Base and the F5 DevCentral online community.

### AskF5 Knowledge Base

Consider AskF5 as your first source for answers. Visit the AskF5 website for software downloads, licensing tools, product guides, release notes, solutions to known issues, and how-to information. You can also sign up to receive security email alerts and product-specific RSS feeds.

### F5 DevCentral

At F5 DevCentral, you can join an online, developer community of more than 60,000 F5 users worldwide who collaborate and share innovations, including code samples, new techniques, and other tips.

## Expedited RMA Services

Expedited Return Materials Authorization (RMA) Services include options for Next Business Day delivery, 4-Hour delivery, and for a technician to install the product for you. All levels include advance replacement.

Customers with Standard or Premium support levels can upgrade to Expedited RMA Services. RMA requests can be submitted only during supported hours, in accordance with the unit's base maintenance contract.

## Maintenance Add-On Packages

Maintenance Add-On Packages offer an opportunity for you to proactively improve your IT infrastructure and better align IT with business goals on an ongoing basis.

Customers with Standard or Premium support levels can purchase Add-On Packages.

## Technical Account Management

The Technical Account Management package provides a Technical Account Manager (TAM) to assist in facilitating communication between your business owners and F5 technical resources and identify and anticipate issues. During escalation, the TAM provides a single point of contact and conducts calls for Severity 1 (site down) priority case management until the issue is resolved.

## Best Practices

With the Best Practices package, an F5 consultant will work closely with you to ensure your organization is making the most of its F5 technology. The package includes a one-year engagement starting with an initial onsite network assessment lasting 10 consecutive days. The initial assessment is followed by monthly 3-consecutive day visits for hands-on help with improving your infrastructure to align your F5 solution with your business goals. You will also receive priority assistance with Severity 1 calls.

## Premium Plus

The highest level of support, Premium Plus provides a dedicated team of F5 Network Support Engineers who become familiar with your unique business environment and objectives, a Technical Account Manager, and a dedicated phone line for your calls. Weekly status meetings and quarterly in-depth reviews provide an opportunity for you to work with your F5 team to address current issues and help you reach future goals. For immediate needs, your calls receive the highest priority status.

You can purchase a Premium Plus Add-On to your Standard (5 x 10) support that matches your contracted hours. You can also purchase a Premium Plus Add-On to your Premium (7 x 24) support for your contracted hours or for 5 x 10 local time coverage.

## Standard and Premium Support Level Comparison

The following table details the features provided in Standard support and Premium support.

MAINTENANCE AGREEMENT FEATURES	STANDARD (5 X 10)	PREMIUM (7 X 24)
5 x 10 support availability (8:00 a.m.–6:00 p.m., M–F, your local time)	✓	✓
7 x 24 support availability		✓
AskF5 Knowledge Base access	✓	✓
WebSupport Portal access	✓	✓
Response to Site Down or Site-at-Risk calls within 1 hour	✓	✓
RMA advance replacement*	✓	✓

\*Option to upgrade to Expedited RMA Services.

## Comparison of Add-On Packages for Standard and Premium Support

The following table compares the features provided in the various Add-On Packages available for additional support. Only customers with Standard or Premium support can purchase Add-On Packages.

Add-On Package Features for Standard and Premium support	Best Practices	TAM	Premium Plus	Premium Plus/ Best Practices
Initial onsite network assessment for 10 consecutive days; plus, monthly 3-day visits for the remainder of the contract	✓			✓
Severity 1 priority case management	✓	✓	✓	✓
Priority placement in the Support phone queue	✓	✓	✓	✓
Immediate Support Manager notification upon case creation		✓	✓	✓
Regularly scheduled case generation and status reports		✓	✓	✓
Quarterly onsite review		✓	✓	✓
Top priority in case escalation path			✓	✓
Dedicated senior Technical Support team familiar with your environment			✓	✓

F5 is committed to helping you keep your F5 technology in peak performance. If your organization requires support that is not included in Standard support, Premium support, or the Maintenance Add-On Packages, contact [services@F5.com](mailto:services@F5.com) to find out about additional services and custom consulting.
