

Table Of Contents

Module 1: Installation & Initial Access	1-1
1.1 BIG-IP ASM Overview	1-1
1.2 Licensing and the Setup Utility	1-4
1.3 Installation and Setup Labs	1-12
Lab – Install and Setup Labs	1-12
Lab – Licensing System Lab	1-13
Lab – Setup Utility Lab	1-16
Lab – Configuration Utility Lab	1-18
Lab – Configuration Backup Lab	1-19
Module 2: Web Application Concepts	2-1
2.1 Web Application Basics Overview	2-1
2.2 Web Page Components	2-3
2.3 HTTP Concepts	2-5
2.4 HTTP Request Components	2-6
2.5 HTTP Headers	2-10
2.6 Using HttpWatch	2-14
Lab – HttpWatch Lab	2-17
Module 3: Web Application Vulnerabilities	3-1
3.1 Web Application Vulnerabilities Overview	3-1
3.2 Risk Mitigation and ASM	3-9
3.3 HTTP Vulnerability Lab	3-11
Module 4: ASM Application Configuration.....	4-1
4.1 Configuration Components	4-1
4.2 Enabling ASM.....	4-4
4.3 HTTP Class	4-5
4.4 Virtual Servers	4-12
4.5 SSL Termination/Initiation	4-14
4.6 HTTP Request Flow	4-16
4.7 ASM Application Configuration Lab	4-17
Module 5: ASM Components.....	5-1
5.1 Web Applications	5-1
Lab – Regular Expressions Lab	5-9
Lab – Regular Expression Validator	5-10

Table of Contents

Module 6: Security Policy Overview	6-1
6.1 Security Models.....	6-1
6.2 Policy Enforcer	6-2
6.3 Policy Implementations and Properties	6-3
6.4 Cookie Processing	6-8
6.5 Global Parameters	6-9
6.6 Extractions	6-11
6.7 Object Types	6-13
6.8 Web Objects	6-14
6.9 Flows	6-15
6.10 Character Sets	6-16
6.11 Audit Tools	6-17
6.12 ASM Policy Logic	6-18
Lab – Security Policy Logic Lab.....	6-20
Module 7: Standard Security Policy	7-1
7.1 Standard Security Policy Benefits	7-1
7.2 Standard Security Policy Enforcement	7-2
7.3 Standard Security Policy Protection	7-3
7.4 Violations	7-3
7.5 Blocking in Standard Security	7-9
7.6 Standard Policy Methodology	7-11
Module 8: Learning and Forensics	8-1
8.1 Learning Concepts.....	8-1
8.2 Forensic Concepts	8-7
8.3 Learning Lab	8-14
Module 9: Flows and Parameters	9-1
9.1 ASM Flows.....	9-1
9.2 Parameter Types	9-3
9.3 Parameter Levels	9-8
9.4 Learning Parameters	9-17
9.5 Parameters Lab	9-18
Module 10: Enhanced Standard Security Policy	10-1
10.1 Purpose of Enhanced Standard	10-1
10.2 Enhanced Standard Flow	10-2
10.3 Implementing Enhanced Standard	10-4
10.4 Enhanced Standard Lab	10-7

Table of Contents

Module 11: APC and Policy Building Tools	11-1
11.1 Purpose of High Security (APC)	11-1
11.2 Policy Building Properties	11-1
11.3 Policy Builder Operation Modes	11-7
11.4 APC Methodology	11-15
11.5 Policy Builder Lab	11-16
Module 12: Maintaining BIG-IP ASM	12-1
12.1 Maintaining ASM.....	12-1
Lab – Statistics and Logging Lab.....	12-10
Module 13: Configuration Lab Project	13-1
13.1 Configuration Lab Project 1	13-1
13.2 Configuration Lab Project 2.....	13-8
Appendix A – Traffic Capturing using Fiddler	A-1
Appendix B – Regular Expression Tutorial	B-1
Appendix C – Remote Lab Install and Setup	C-1
Appendix D -- PowerPoint Slides	D-1
