

“As an F5 partner, Entuity is committed to providing comprehensive monitoring for the F5 product line of networking solutions.”

Michael Jannery, President & CEO, Entuity

The F5 and Entuity Partnership

Key benefits

- Monitor network performance
- Eliminate performance blind spots
- Work more efficiently
- Integrate with ease

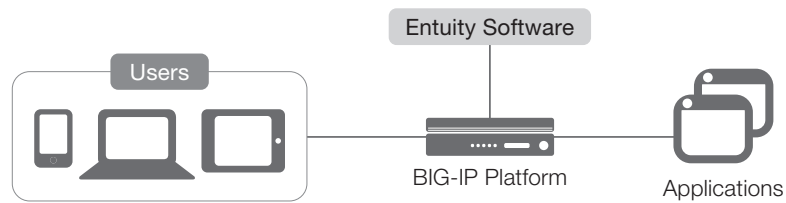

F5 and Entuity have partnered to dramatically reduce the complexity of network management. When you integrate your F5® BIG-IP® platform with Entuity’s unified, agile, and scalable network management software, you get a holistic view of the critical data you need—when you need it. And your network administrators get a better understanding of network inventory, topology, availability, capacity, performance, and ultimately, service delivery.

Integrate BIG-IP Appliances with Entuity Software

You need to be able to see the complete picture of what’s going on with your network at all times. Entuity software helps take the work out of network management through future-proof technology, a sharp business focus, and a high degree of automation. And when you combine that operational efficiency with the granular data delivered by the F5 BIG-IP platform, you can eliminate blind spots and get effortless access to the information you need to ensure your network is always running smoothly. F5 and Entuity make it easy to simplify network management, dramatically increase operational efficiency, and lower your total expenses.
