

# Strengthen, Secure, Simplify Your Clouds

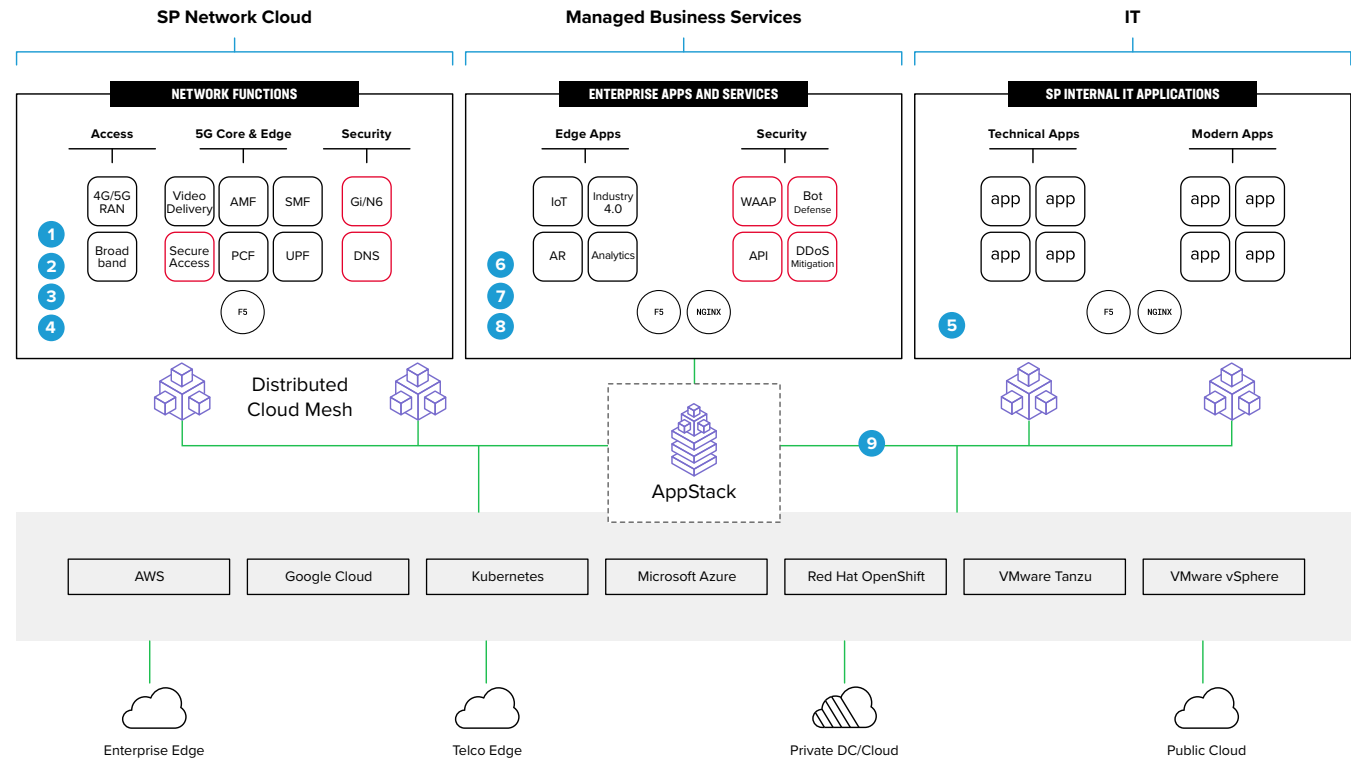

## F5 DEMOS AT MPLS, SD & AI NET WORLD 2022

### Telco Cloud and Telco IT

- 1 F5® BIG-IP® Next CGNAT CNF on the F5 Distributed Cloud Platform
- 2 F5 BIG-IP Next CNF Solutions
- 3 F5 BIG-IP Next Service Proxy for Kubernetes (SPK)
- 4 Video Delivery Solution
- 5 The Modernization of Telco IT (live demo)

### Telco as a Managed Services Provider

- 6 Managed Services
- 7 F5 Distributed Cloud Web Application and API Protection (WAAP) (live demo)
- 8 Enterprise Edge Computing (live demo)
- 9 Multi-Cloud Networking with F5 Distributed Cloud Services (live demo)

# F5 Demos at MPLS, SD & AI Net World 2022

Join us to view the following demos at the MPLS, SD and AI Net World 2022. Hear directly from our product experts and learn how F5's latest technologies can help you boost security and flexibility, while delivering stronger customer experiences from end to end.

Telco Cloud and Telco IT		Telco as a Managed Services Provider	
1	<b>F5 BIG-IP Next CGNAT CNF on the F5 Distributed Cloud Platform:</b> Deploy and operate F5's cloud-native CGNAT (N6 Function) with F5 Distributed Cloud App Stack.	6	<b>Managed Services:</b> Win new customers, grow revenue, and maximize profits with best-in-class F5 Managed Services for Service Providers.
2	<b>F5 BIG-IP Next CNF Solution:</b> F5 CNF solutions leverage cloud-native benefits to reduce cost of ownership. This solution includes Edge Firewall, DNS, CGNAT, and Policy Enforcer CNFs.	7	<b>F5 Distributed Cloud Web Application and API Protection (WAAP) (live demo):</b> Introducing SaaS-based F5 WAAP, the most comprehensive, effective, and easy-to-implement way to secure web applications and APIs deployed in multi-cloud and distributed environments.
3	<b>F5 BIG-IP Next Service Proxy for Kubernetes (SPK):</b> Implement multi-protocol ingress/egress signaling control, security, and visibility for Kubernetes based cloud-native 5G solutions, to support the transition from 4G.	8	<b>Enterprise Edge Computing (live demo):</b> F5 brings next-generation edge computing, designed for a mix of both modern and traditional applications from cloud to core to edge.
4	<b>Video Delivery Solution:</b> We'll explore how to deploy a video delivery solution in a service provider network IP/ MPLS backbone in minutes and how to implement elastic scaling at the edge and in public cloud infrastructure.	9	<b>Multi-Cloud Networking with F5 Distributed Cloud Services (live demo):</b> Managing networking across multiple clouds without consistent services, policies, and end-to-end visibility is complex and expensive. Learn how F5 can help.
5	<b>The Modernization of Telco IT (live demo):</b> Learn why many service providers are moving towards the next generation of computing, while protecting their current infrastructure investments.
